Our story begins with the golden goodness of jaggery – a traditional Indian sweetener with immense potential on the global stage.

Our jaggery is enriched with minerals & vitamins which is natural and healthy alternative to refined sugar.

We export jaggery to our customers in Dubai, Kuwait, Australia and other countries.

BENEFITS OF JAGGERY*

JAGGERY

- It is far complex than sugar.
- It is digested slower than sugar & releases energy slowly.
- It is rather a tastemaker & colour maker
- It contains iron, calcium, potassium, phosphorus
- Jaggery helps in calcium absorption
- Jaggery is ecofriendly
- Jaggery aids in digestion, as jaggery breaks & becomes alkaline in the digestive system

SUGAR

- It is simplest available forms of sucrose.
- It is instantly absorbed in blood & releases a burst of energy.
- It is just a sweetener
- It is source of empty calories
- Sugar interferes with absorption of calcium & magnesium
- Sugar industry pollutes air, water & soil.
- Sugar becomes acidic.

Our Sourcing of Jaggery

MAHARASHTRA

Maharashtra ranks 2nd in the top sugarcane producing states in India. 9 lakh hectares of land is used to produce 75.3 MT of sugarcane in Maharashtra.

We source our jaggery products from Kolhapur District of state of Maharashtra in India.

Kolhapur Jaggery is world famous for its quality and purity.
